

Section 18.

Acceptable Use Policy: Technology and Internet Safety.

The Academy's technology resources may only be used for learning, teaching, and administrative purposes consistent with the Academy's mission, goals and Educational Program. The use of the Academy's computer system and access to the use of the Internet is a privilege, not a right. Users of the Academy's computer system and the Internet while using Academy technology have no legitimate expectation of privacy. The Academy reserves the right to monitor all technology resource activity.

The School Leader or Director shall develop and implement administrative guidelines, regulations and user agreements that are consistent with the purposes of the Academy, its mission, goals and Educational Program and that comply with applicable law, including the Children's Internet Protection Act (CIPA) and the Children's On-Line Privacy Protection Act (COPPA). The Academy shall use technological measures to block or filter access to portions of the Internet containing visual depictions of materials deemed obscene or pornographic, including child pornography, and other material that may be harmful to minors, and to comply with CIPA and COPPA.

The Academy shall cooperate fully with local, state and federal authorities in any investigation concerning or related to any illegal activities or activities not in compliance with Academy policies, administrative guidelines, regulations, procedures and user agreements using Academy provided technology and Internet.
